Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Box 3: Contd. Newly proposed language to claim 25 requires further consideration with respect to 35 USC § 112, (and perhaps 35 USC § 102 and/or 35 USC § 103 in light of the change in language to lines 7-9 and 17-19 of claim 25). Upon a cursory review amended claim 25 does not appear to overcome the rejection under 35 USC § 112, second paragraph. For example, it would not be clear as to what a "non-circular transition portion" is versus a "joint portion". Lines 7-9 and 17-19 as proposed amended do not appear clear with respect to the elements recited therein and their particular relationship between one another and within the claimed invention.

Box 5: Contd. Applicant's response has overcome the nonstatutory obviousness-type double patenting rejection of claims 22-28 over claims 1-19 of U.S. Patent No. 6,814,525.

Box 13: Contd. The terminal disclaimer filed on June 16, 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,814,525 has been reviewed and is accepted. The terminal disclaimer has been recorded.
